REASONS FOR ALLOWANCE

Claim 18 claims "an adjustable member that is engagable with the stop to prevent backlash" (last two lines). The specification makes the same statement (e.g. end of first full paragraph of page 4) and states that "Adjustment screws 40 and 41... are configured to engage pad 20 and stop pin 18 to limit the travel of pinion 34" (line 22-24 of page 7). Webster's new world Dictionary defines backlash as "a quick sharp recoil" (definition 1) or any sudden or violent reaction (definition 2), and defines a pad as "anything made of or stuff with soft material to fill out a shape, protect against friction, pressure, <u>jarring</u>, or blows, etc; cushion" (definition 2, emphasis added). Since a pad protects against backlash (i.e. jarring), it is clear how the adjustment screw engages the stop (i.e. pad 20) to prevent backlash.

Original claims 15 and 28 claimed an adjustable member. Original Claims 16 and 29 depended from claims 15 and 28, respectively and claimed that the adjustable member prevents backlash on the bearing and pinion. The only difference between claim 16 or 29 and claim 15 or 28, respectively, is the limitation concerning "preventing backlash". It is understood that this limitation is broadly claiming an element or material, which will cushion (i.e. prevent jarring during) the abutment between the adjustment screw and the stop.

The limitation of claim 29 has been incorporated into claim 18, to make it allowable. The cited prior art shows an adjustment screw engaging a stop, to limit movement of the pinion, but not to prevent backlash. It is well known to have pads to prevent backlash (such as with a linear piston-cylinder combination), but not for a pinion rotating less than 360 degrees. There is no motivation to combine a prior art pad with any of the cited references to prevent backlash for a pinion rotating less than 360 degrees, and therefore claim 18 is allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, preferably accompanies the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
